# THE HUMAN RIGHT'S VIOLATION SINCE OCTOBER UNTIL TWELVE NOVEMBER 1992 IN EAST TIMOR

As we know October is the Important month for East Timor struggling also because In that month actually in 1991 has an accident that happened at "Motael Church". On October 28th 1991, Sebastião Gomes" was killed by Indonesian Millitary in Motael Church and more than fifty person was Captured and Interrogated untill Jailed - and also plunder several kitchen knife, Spoon and others. After They Captured all those things They said that in Motael Church as a place To Conceal something related with "Fretelin" like East Timor "Flag" and some document that from abroad and also from our resistance army. But in the real one nonsense because they didn't find any thing "like" "flag" and "document" but they took priest Richardo's Table Knife to the police station as a proof that priest Richardo gave knife to the young that who have stayed at Motael Church for fighting with the Indonesian army.

And Pose on Twenty eight October 1991 and that as the Consequence of Twelve November 1991 at "Santa" Cruz accident.

And also on October 5th 1992 that one accident happened at Baucau. In the same time Two young man was killed. They are Alcino da Costa and Adolfo Ximenes. As the Consequence of that accident more than 30 (thirty) person was Captured and killed, and ~~the places that~~ they have killed as in The hospital of Baucau, in the Samalari village, behind of the Baucau Airport, and on the way to Quelicai village. But untill some peaces still kept by the Indonesian Army and for me it's very Complicated to visit that places. For this Information I know from our people whom as Spy for Indonesian Army and The millitary but they are Timorese people who followed in that Time.

And also at the same day on october 1992 or this year the Indonesian army killed six (6) person in Baucau area actually at Vemase village and in the Small village against that at "Ossowala".

Indonesian army said or provoke that our resistance

killed Those population. But according to the witness report and also talk to me when I and one of my friend visited him at his home villages in the night time he retell to us that in that time they went for hunt deer or kijan but on the way they found several Army and they knew that they are Indonesian army with the complet manne and equiptment as Indonesian army. The Indonesian asked them to give one deer for them but they (population) have one deer too and how can they do that. They decided to gave to the Army a part of deer and other sides for them self but the Army refused that they should gave all of for them. And in the end the people still refused and the captured all of the and the Army began shut them but him and other one of his friend save because when the shutting the both of them as soon as possible ran away from that place and looking for save places for them to hide until the night coming the both of them came out from the hidden and went back to their villages. They report to total heads of villages as their truth one as what they seem but the village head's asked them don't talk as the truth one the should said that our resistance army have killed those populations. Of course they have to do that if not they will captured and jailed. And now they free again after several time they have to interrogated in Bauacau and by Indonesian soldiers leader from Dili.

Base on those reason since october until twelve november the Indonesian army captured Timorese people everywhere around East Timor. Es

Especially on twenty eight october 1993 in Dili City at the night time they come or check all the house in Dili City and since that day every night we are as Timorese should take care everywhere. Sometimes they send they spy to kept our houses that some one coming our houses they will interrogated us and also our guest to asked them some questions like where does our guest come from, what our relations with our guest and what will we do.

→

Even though our guest stay in Dili too.

Since 28 October 1993. Check point on the way from Baucau Lospalos, Viqueque, Aileu, Ermera, Manatuto to Dili and from other part of East Timor too. In this point not only our Society Card has Check but also our bag and our purse or wallet. If we bring some empelove they ask several questions about it. After that they sent us back to Dili and they didn't admit us to Continued our Trip to Baucau.

Since October 28th 1993 too, The army Capture several young man in Dili and out side Dili like in Same and Aileu and also in Baucau. And in Dili we have Celebrated a small mass in Motael Church, Becora, Balidi Church too, but it was so bad because the people who took part in that mass not only the Catholic people but Muslim, gun, granat and radio Cantactor. Made our people sometimes they didn't pay full attantion with the mass but only hear to the voice of radio Cantactor.

The Same think also happened when we have mass in the Cemetery not only in Dili or "Santa Cruss" Cemetery but it also in Baucau because I wanted to know about the situation that happened on the second of november because in that day also has big or important think for our people who was death. And then for me in the morning of november the second I took part the mass in Dili and then Direct ly I went to Baucau to visit parents but until in Baucau it was Three o'clock and then as soon as I went to the Cemetery and what was happened at there no different each other or the same as in Dili too.

After that I went back to Dili November 5th 1993, but on the way I found a litle difficult but it was not so - until in Dili, some one already waited for me at home and took me to Commando and I was Interrogated because I went to Baucau I didn't report my self for them. but it also not so but I stoole several times with stick but it doesn't matter.

On the November 6th 1993 the Army was Captured one person in front of the East Timor University Campus. And they brought him to the Commando and untill now he is still in prison. His code name is "Ameo".

Since that time they went arround Dili City to looked for some people for Captured. And Certain they have Captured several people in "Quintal boot" "Santa Cruss", "Vilaverde", Becora, Colmera and other part of Dili.

In twelve november They Captured several students from SMAN II Dili, SMA Hati Kudus, and also from East Timor university students but they unsuccesful because they Captured four person but our friend have best strategy and they could save from the Capturation. And now they can follow they lectures again because the Army didn't know yet their full name and their characteristic. But the total Capturation more then forty (40) person because they Capture in Becora, Motael, Colmera, Bairoki Vilaverde, Kulubur, Balidis and also in Santa Cruss.

The Capturation was made by "garnizun", Commando, policy, and several Batalion that took place in Dili.

But Those young man were got free already because They afraid that in that we will have demonstration again but in the real we postpone because based on several Consideration:

1. Our Bishop didn't at East Timor or after the demonstration none as our savior or to protect us.
2. Because priest from Motael Church didn't at Dili too because he went out from East Timor for Cure his disease.
3. The opportunity or the situation is not admit us to because no many foreigner or journalist from abroad.
4. Thwole the roads in Dili all kept by the army-

From Mary to Luisa CNRM

Untill now all the way in Dili and the Church also still in kept by the Army and for Sunday or on november 14th 1993 all the Church in Dili from 'Motael Church, Letidere or Bishop Belo houses, Cathedral Church, Balide Church and Fatuca Church in kept by Army and whole or a long the street untill Santa Cruz Cemetery.

Once again I said that October and November are the Important month for East Timor History now.

Back to the people that the Army killed at "Kraras". I want to tell you their name too.

1. Cipriano Pereira
2. Sebastião Soares
3. Graciano Sebastião
